Barrington Irving became the first African-American and native Jamaican to accomplish flying solo around the world when he was 23.

Now 30, Irving has founded Experience Aviation, a nonprofit organization that works to attract minority youths to careers in aviation.

When visiting an Illinois school recently, Irving told the students they might face failure and rejection but despite that, "You just have to get up off your butt and do it." The best part is getting back up and pursuing your dream.
